CONTENTS

	<i>Section</i>
Adhesion.	ADH.1
After-Sales Service.	PRO.1
Air Brakes for Freight and Passenger Cars.	AIR.1
Air Brakes for Locomotives and other Self-Propelled Vehicles.	AIR.2
Air Brakes, Direct Release Automatic.	WES.1
Air Brakes, Graduable Release Automatic.	WES.2
Air Compressors for Railway Use.	COM.1
Air Dryers.	DRY.1
Association of American Railroads (AAR), Pressures and Timings.	PRE.1
Brake Cylinders.	CYL.1
Brake Rigging Leverage, Forces and Movements.	BRA.1
Brake Force, Retarding Effort and Decelerating Force in a Block, or Tread Brake.	BRA.2
Brake Force, Retarding Effort and Decelerating Force in a Disc Brake.	BRA.3
Compressors for Railway Use.	COM.1
Compressor Duty Cycle.	COM.2
Consultancy Service.	PRO.1
Contracts Engineering.	PRO.1
Control Valve Type Z1AW for Freight Brakes to AAR Standards.	CON.1
Control Valve Type Z1A for Freight Brakes.	CON.2
Control Valve Type ZS1A for Freight Brakes.	CON.3
Cylinders, with and without Slack Adjuster.	CYL.1
Disc Brake Cylinders.	CYL.1
Disc Brake Retarding Effort and Decelerating Force.	BRA.3
Distributors Type P4a for Graduable Release Air Brakes to UIC and British Railways Standards.	DIS.1
Driver's Brake Valves, Controllers and Control Desks.	DRI.1

Dryers, and the Precipitation of Moisture in Compressed Air.
Dual Brake for Locomotives.
Dynamic Brake Blending.
Electro-Pneumatic (E.P.) Brakes for Rapid Transit Trains.
Electro-Pneumatic (E.P.) Brakes, Analogue Systems.
Electro-Pneumatic (E.P.) Brakes, Westcode ®
Digital Systems.
Electronic Wheelside and Wheelspin Detection
and Correction.
Empty/Load Control.
Engineering Consultancy and Contracts Engineering.
Friction between Cast Iron Brake Blocks and Steel Wheels.
Friction between Composition Brake Blocks and Steel Wheels.
Handling Brake Equipment.
Installation of Compressed Air Brake Equipment on
Railway Vehicles.
Installation of Electrical Brake Equipment on
Railway Vehicles.
Instruction Books.
Main Reservoir Capacity, its function in a brake system.
Maintainability of Railway Brake Equipment.
Maintenance. Instruction Books and Training.
Moisture in Compressed Air.
Overhaul, Handling and Storage of Compressed Air
Brake Equipment.
P4a Series Distributors.
Parking Brakes.
Pressures and Timings required by the AAR for Single
Capacity Freight Brakes.
Pressures and Timings required by British Railways for
Graduable Release Automatic Air Brakes.
Pressures and Timings required by the UIC for Graduable
Release Automatic Air Brakes for use in International Traffic
in Europe.

Product Support, Contracts Engineering, After-Sales Service and Technical Consultancy.	PRO.1
Quality Assurance.	QUA.1
Reliability of Railway Brake Equipment.	REL.1
Reservoirs to British Standard No. 3256.	RES.1
Retardation and Stopping Distance.	RET.1
Retarding Effort in a Block, or Tread, Brake.	BRA.2
Retarding Effort in a Disc Brake.	BRA.3
Rigging Leverage, Forces and Movements.	BRA.1
Safety Precautions during Installation.	INS.1
Safety Precautions during Overhaul.	OVE.1
Servicing Facilities and Service Exchange.	PRO.1
Slack Adjusters.	SLA.1
Slack Adjusters combined with Brake Cylinders.	CYL.1
Spring – Applied Brake.	SPR.1
Spare Parts.	PRO.1
Stopping Distance.	RET.1
Storing and Handling Brake Equipment.	OVE.1
Straight Air Brake and Straight Air with Emergency Brake.	WES.5
Test Equipment.	PRO.1
Training.	PRO.1
Tread Brake Units.	CYL.1
UIC Pressures and Timings.	PRE.3
Units used in Brake Engineering.	UNI.1
Vacuum Controlled Straight Air Brake.	WES.5
Variable Load Control.	WES.8
Westinghouse Direct Release Automatic Air Brake.	WES.1
Westinghouse Graduable Release Automatic Air Brake.	WES.2
Westinghouse Analogue Electro-Pneumatic Brake.	WES.3
Westinghouse Westcode ® Electro-Pneumatic Brake.	WES.4

Westinghouse Straight Air Brake, Straight Air Brake with Emergency Brake, and Vacuum Controlled Straight Air Brake for Locomotives and other Self-Propelled Vehicles.	WES.5
Westinghouse Dual Brake for Locomotives.	WES.6
Westinghouse Electro-Pneumatic Air/Dynamic Brake Blending Equipment.	WES.7
Westinghouse Empty/Load and Variable Load Features for use with the Graduable Release Automatic Air Brake.	WES.8
Wheel Brake Units.	CYL.1
Wheelslide and Wheelspin Detection and Correction.	WHE.1
Z1AW Control Valve for Freight Brakes to AAR Standards.	CON.1
Z1A Control Valve for Freight Brakes.	CON.2
ZS1A Control Valve for Freight Brakes.	CON.3
