

# RAILWAY ELECTRIFICATION AND TRAFFIC PROBLEMS

BY  
PHILIP BURTT

FORMERLY DEPUTY GENERAL MANAGER OF THE NORTH  
EASTERN RAILWAY;  
AUTHOR OF "CONTROL ON THE RAILWAYS," "RAILWAY RATES:  
PRINCIPLES AND PROBLEMS," ETC.

WITH A FOREWORD BY  
FRANK PICK

MANAGING DIRECTOR,  
UNDERGROUND ELECTRIC RAILWAYS CO. OF LONDON, LTD.

LONDON  
SIR ISAAC PITMAN & SONS, LTD.  
PARKER STREET, KINGSWAY, W.C.2  
BATH, MELBOURNE, TORONTO, NEW YORK  
1929

# INDEX

- ACCELERATION, factor of, 33, 53-54, 74, 75, 127, 128
- Acton, passengers, development of, 164
- Acworth, Sir Wm., quoted, 97, 170
- Advantages accruing on the Swiss railways, 153
- Advent of electricity in traction, 1-7, 47, 52, 88
- Air navigation, 4
- Amsterdam-Rotterdam railway electrification, 37-48, 55, 61, 105
- Arrest of passenger traffic, 155
- Aspinall, Sir John, quoted, 178, 179
- Automatic appliances, 82-85, 88-93, 124, 188
- BALTIMORE and Ohio railroad tunnel, 11
- Barberine barrage, 139, 140
- Bavaria, electric railways in, 69, 121
- Belgium, light railways in, 171
- Berlin electric railways, 58
- Zossen experiment, 57-58
- "Betterment" policy in accounting, 176, 177
- Block system of signalling, 75-77, 87-88
- Brakes, continuous, for goods trains, 124, 125
- , efficiency of, 85-86, 125
- Brent, development of, 165
- Brighton line, electrification proposed, 9
- Bruce, J. K. (London trams), quoted, 78
- CANNON Street station, 129, 130
- Capital costs in railway expenditure, 180-183, 191
- expenditure required, 169
- or revenue for electrification, 174-177
- Carriage accommodation problems, 26, 30, 99-115, 127, 130
- Carriage door types, 31-32, 38, 79, 106, 109, 112, 114
- "Caution" or warning signals, 77, 94
- Central Electricity Board, 184, 189, 190
- London railway, 8, 23
- Chicago, St. Paul, and Milwaukee railway, 70-71
- City and South London railway, 8, 23
- Coal supply shortage necessitated electrification, 12
- Colindale, development of, 165
- Colour light signals, 94-95, 130
- Continuous brakes for goods trains, 124, 125
- Control train, systems of, 77-78
- "Convertible" carriages, 26, 100
- Cost of electrification, 174-191
- Cox, E. C., quoted, 96
- DAVY, Humphrey, 4
- "Dead man's handle," 85
- Dead weight of passenger carriages, 38, 101-102, 104-106
- Delft electric railway, 41-44
- Detection, automatic, of signal faults, 93
- Development of passenger traffic, 155-173
- of rural areas, 171
- Dining car on M.O.B. railway, 105, 110
- EALING, development of passengers, 164
- East Coast railways, electrification proposed, 9
- London railway, statistics, 162-163
- Edgware extension, Underground railways, 49, 94, 164-165, 180
- Electrical era, advent of, 1-2
- Electrically hauled goods trains, 40, 116-125
- Electric current, cost of, 32, 183-184

- Electric heating of trains, 38,  
115  
— lighting, 115, 188  
Electricity commissioners, 190  
Electrification, beginning of,  
23  
— necessitated by coal short-  
age, 12  
— — by station terminal  
working, 12  
— — by tunnel necessities,  
11  
—, present position, 8-14  
— problems described, 15-22  
—, progress of, 6, 7, 8, 14  
— of express passenger lines,  
9, 10, 55-58, 62-73  
— of goods trains, 40, 116-  
125  
—, tunnels necessitate, 10-11,  
71-72, 84-85  
Electro-pneumatic power in sig-  
nalling, 93  
Epping train service illustrated,  
51  
Escalators, 82-83  
Euston station, 50  
— — — — — Watford electric line, 166-  
167  
— — — — — passenger statistics,  
160
- FARADAY, Michael, 2, 45  
Fog working, 127, 129  
France, electric railways in,  
56-57, 61-62, 118, 119  
Frequency of service, 28, 30, 41-  
43, 49-52, 127, 165, 167
- GALVANI, 5  
Germany, electric railways in,  
57, 58, 69, 120, 121  
Golders Green and Edgware  
railway, 49, 94, 164, 165, 180  
Goods trains, electrification of,  
40, 116-125  
Gornergrat railway, 146-148  
Gotthard Pullman express, 143  
— tunnel, trains through, 10,  
64, 65, 118, 135-137  
Greater London, population and  
travel, 18, 21, 22, 156, 157  
Great India Peninsular railway,  
electrification, 72, 73  
"Grid," national, 184, 189, 190
- Gruyère electric railways, 144,  
182
- HAGUE tramways, 40-44  
Harpenden-St. Albans train ser-  
vice, 167, 168  
Heating, electric, of trains, 38,  
115  
Hendon, development of, 165  
Hertfordshire, possibility of  
development, 166-168  
Highgate tube, 49  
Holland, electrical railways in,  
13, 30, 35-48, 49, 55, 61, 97,  
104, 105, 116, 163, 168  
Hoy, Sir Wm., report on South  
African railways, 69, 70
- IJMUIDEN electric train service,  
39  
Illinois Central railroad, type of  
carriage door, 109
