NMBS/SNCB TIMETABLE INFORMATION, IC OSTEND-EUPEN

Dames en Heren, Mesdames et Messieurs, Ladies and Gentlemen, you are about to embark on the longest train line in Belgium. From the royal seaside resort of Ostend in the west, this intercity service will ferry you east towards the country's industrial heart, beach scenes ceding to polders, medieval turrets morphing into factory smokestacks in the span of three hours.

There are two ways of travelling on the Endless Express – either facing forwards or backwards. To adopt the first, garish strategy, with its love of linearity, simply begin reading on the first page and continue until you reach the last, making sure to skip the passages which are crossed out. To adopt the second mode of travel, catch the connections indicated by the arrows at the end of each section. In case of confusion or travel-fatigue, here are the given correspondences:
