

THE CENTRALIZED CONTROL
OF THE BELGIAN RAILWAYS'
FREIGHT TRAFFIC

SUMMARY
=====

| | | |
|-------------------|--|----------|
| Chapter 1. | INTRODUCTION. | |
| 1.1. | Terminology | Page 1. |
| 1.2. | Generalities. | Page 3. |
| 1.3. | Objectives. | Page 3. |
| 1.4. | Historical outline. | Page 4. |
| 1.5. | Main elements in the choice of the new system. | Page 5. |
| 1.6. | Development phases of the new system. | Page 6. |
| Chapter 2. | HARDWARE INSTALLATIONS. | |
| 2.1 | The teleprinters. | Page 9. |
| 2.2 | The screens. | Page 9. |
| 2.3 | The concentrators. | Page 10. |
| 2.4 | The central computer. | Page 10. |
| Chapter 3. | USED SOFTWARES. | |
| 3.1 | The C.I.C.S. | Page 11. |
| 3.2 | ADABAS. | Page 11. |
| 3.3 | The Teleprinter Interface. | Page 13. |
| Chapter 4. | THE STAFF. | |
| 4.1 | The data processing staff. | Page 15. |
| 4.2 | The User's staff. | Page 17. |
| 4.3 | The relation between staffs. | Page 18. |
| Chapter 5. | THE DIVISION OF THE GEM-system NETWORK. | |
| 5.1 | The communication zones. | Page 19. |
| 5.2 | The local zones. | Page 19. |
| 5.3 | The groupings. | Page 19. |
| 5.4 | The sorting humps. | Page 20. |
| 5.5 | The tracks. | Page 20. |

Chapter 6. DEVELOPMENT and ORGANIZATION OF THE GEM-system.

| | |
|----------------------------------|----------|
| 6.1. The Three C.I.C.S. | Page 22. |
| 6.2. The three databases ADABAS. | Page 23. |

Chapter 7. FILES.

7.1 BDAM files.

| | |
|---|----------|
| 7.1.1 Generalities. | Page 25 |
| 7.1.2 File contents. | |
| 7.1.2.1 Communication zones. | Page 27. |
| 7.1.2.2 Station configurations. | Page 28. |
| 7.1.2.3 Dangerous goods. | Page 29. |
| 7.1.2.4 Existence. | Page 29. |
| 7.1.2.5 Communication zones modification. | Page 31. |
| 7.1.2.6 Teleprinters. | Page 31. |
| 7.1.2.7 Order of set of sidings. | Page 32. |
| 7.1.2.8 Switch ON-LINE / BATCH. | Page 33. |
| 7.1.2.9 Groupings. | Page 33. |
| 7.1.2.10 Customers. | Page 35. |
| 7.1.2.11 Allocations. | Page 37. |
| 7.1.2.12 Station configuration modificat. | Page 40. |
| 7.1.2.13 Groupings modification. | Page 40. |
| 7.1.2.14 Local zones modification. | Page 41. |
| 7.1.2.15 Tracks modification. | Page 42. |

7.2 C.I.C.S tables

| | |
|---------------------------------|----------|
| 7.2.1 Generalities | Page 43 |
| 7.2.2 File contents | |
| 7.2.2.1 Internal numbers. | Page 44. |
| 7.2.2.2 Danger codes. | Page 44. |
| 7.2.2.3 Groupings. | Page 45. |
| 7.2.2.4 Types of wagon. | Page 45. |
| 7.2.2.5 'System' data. | Page 46. |
| 7.2.2.6 Divisors. | Page 46. |
| 7.2.2.7 Installations. | Page 47. |
| 7.2.2.8 Interface Teleprinters. | Page 47. |

7.3 ADABAS files.

| | |
|---|----------|
| 7.3.1 Generalities. | Page 48. |
| 7.3.2 File contents. | |
| 7.3.2.1 Wagons. | Page 48. |
| 7.3.2.2 Trains. | Page 56. |
| 7.3.2.3 Tracks. | Page 60. |
| 7.3.2.4 Local zones. | Page 61. |
| 7.3.2.5 Variable part of locations files. | Page 62. |
| 7.3.2.6 Other ADABAS files. | Page 63. |

Chapter 8. TRANSACTIONS or ON-LINE programs.

| | | |
|---------|--------------------------------------|-----------|
| 8.1 | Technique. | Page 68. |
| 8.2 | The entry lines on the teleprinters. | Page 69. |
| 8.3 | Teleprinter transactions. | |
| 8.3.1 | The active transactions. | |
| 8.3.1.1 | The station transactions. | Page 76. |
| 8.3.1.2 | The service transactions. | Page 90. |
| 8.3.2 | The consultative transactions. | Page 94. |
| 8.3.2.1 | The transactions on wagons data. | Page 94. |
| 8.3.2.2 | The transactions on trains data. | Page 95. |
| 8.3.2.3 | The transactions for supervision. | Page 96. |
| 8.3.2.4 | The other transactions. | Page 97. |
| 8.4 | Screen transactions. | page 98. |
| 8.4.1 | The transaction D001. | Page 98. |
| 8.4.2 | The transaction D100. | Page 105. |
| 8.5 | Autostarted transactions. | page 106. |

Chapter 9. BATCH PROGRAMS.

| | | |
|-------|---------------------------------|-----------|
| 9.1 | Generalities. | Page 108. |
| 9.2 | The periodical processing. | |
| 9.2.1 | The collection of modification. | Page 112. |
| 9.2.2 | The update of files. | Page 115. |
| 9.3 | Batch executed at fixed date. | Page 123. |
| 9.4 | Help and service procedures. | Page 123. |
| 9.5 | Recovery procedures. | Page 124. |

Chapter 10. OTHER APPLICATIONS connected to the GEM-system.

| | | |
|------|---|-----------|
| 10.1 | General overview of the existing applications included into the GEM-system. | Page 125. |
| 131 | - Exploiting historic. | Page 126. |
| 132 | - Control of wagon stocks. | Page 127. |
| 133 | - Trains connection. | Page 128. |
| 134 | - Wagons demurrage. | Page 129. |
| 135 | - Stations statistics. | Page 130. |
| 136 | - Distribution of empty wagons. | Page 131. |
| 153 | - Trains monitoring. | Page 133. |
| 635 | - RAIL-easy. | Page 137. |
| 10.2 | General overview of the existing applications related with the GEM-system. | Page 138. |
| 10.3 | Future extensions. | Page 140. |
