Foreword	6

SPECIFICATION

1. Scope	6
2. Flat bottom railway rail sections	6
3. Dimensions and weights of rails of British Standard section	6
4. Quality and chemical composition of the steel	7
5. Marking	8
6. Templates	8
7. Notice of rolling	9
8. Manufacture	9
9. Rails to conform to template	9
10. Permissible variation in dimensions	9
11. Freedom from defects	10
12. Testing facilities	10
13. Facilities for inspection of manufacture	10
14. Complete chemical analysis after rolling	11
15. Number of chemical analyses after rolling	11
16. Falling weight test	11
17. Number of falling weight tests	12
18. Tensile test and test pieces	13
19. Number of tensile tests	14
20. Pendulum impact test and test pieces	14
21. Number of pendulum impact tests	16
22. Tests at manufacturers' works	16
23. Additional chemical analyses and mechanical tests before rejection	16

	Page
24. Independent chemical analyses and tensile tests	18
25. Straightening	19
26. Sawing	19
27. Length of rails	19
28. Length of rails for matching	20
29. Permissible variation in length of rails	20
30. Holes in rails	20
31. Marking of accepted rails	20
32. Rejection	20

APPENDICES

A. B.S. 103, ' Falling weight testing machines for rails '	21
B. British Standard tensile test pieces	22
C. Holing of flat bottom railway rails	23
