

COMPUTERS IN RAILWAY OPERATIONS

EDITORS: T.K.S. Murthy, J. Körber and B. Mellitt

**Computational Mechanics Publications
Springer-Verlag**

CONTENTS

SECTION 1 TRANSMISSION AND TRACTION

Microprocessor Minimisation of Tractive Effort Disturbances in Fast Acting DC Chopper Controller <i>S. Shikata, J. Allan and B. Mellitt</i>	3
Implementation of Optimised PWM Scheme Using TMS32010 <i>J.A. Taufiq, G.D.H. Copping, R.J. Chance</i>	21
Rail Traction Energy Management Model <i>R.A. Uher</i>	39
Microprocessor Control on Traction Motors <i>R.J. Bevan</i>	61
Computer Harmonic Representation of Traction Choppers <i>A. Piccolo, N. Rotondale</i>	73
Harmonic Evaluations in DC Traction Substations <i>L. Battistelli, A. Losi, A. Piccolo and N. Rotondale</i>	85
A Computer-Based Portable Analyser Assessment of Harmonic Effects in AC and DC Railways <i>J. Allan, B. Mellitt, J.C. Brown and J.A. Taufiq</i>	103
Electrification of DSB Main Lines CAD-Application for Design of Overhead Catenary System <i>P. Olesen, U. Støttrup-Andersen</i>	121
CAD Techniques for Power System Studies and Electromagnetic Screening Calculations in AC Railways <i>B. Mellitt, J. Allan, Z.Y. Shao, H. Bozkaya and W.B. Johnston</i>	145
CAE for the Electrical Design of Urban Rail Transit Systems <i>C.J. Goodman, B. Mellitt and N.B. Rambukwella</i>	173

SECTION 2 ADVANCED CONTROL SYSTEMS

A Simulation-Based Assessment of Locomotive Adhesion Performance in Curve Negotiation <i>G.W. English, J.C. Michaud, J.A.C. Fortin and R.J. Anderson</i>	197
MICAS: Computer on Rail Vehicles <i>H. Dressler, K. Gemmeke</i>	215
Fail-Safe Processor-Based Interlocking <i>A. Barriobero</i>	231

SECTION 3 TRAIN OPERATIONS

A Train Operations Computer Model <i>R.A. Uher, D.R. Disk</i>	253
Train and Engine Crew Management System <i>F. T. Anbari</i>	267
Automated Search Technique for Optimising Speed Command Levels in the London Underground Central Line ATC System <i>D.C. Gill, C.J. Goodman, H.J. McCormick and R. W. Aylward</i>	285
Energy Minimisation in Transit Systems Using a Train Based Expert System for Dynamic Coast Control <i>S. Sujitjorn, B. Mellitt, N.B. Rambukwella</i>	303
Timetable and Headway Control <i>J. Bustinduy, R. Corisco</i>	317
