Why New Trains?

- C547/001/98 **New trains for a new railway – a global perspective**
P Metcalf and D McCabe 1
- C547/010/98 **The business case for new trains – developing a robust case**
R Clutton 19
- C547/026/98 **New customers for new trains**
R McDonald 31

What Trains?

- C547/017/98 **Performance specifications – what are they for and what must they really contain?**
P J Russenberger 35
- C547/025/98 **New vehicles for continuing rail head conditioning and track treatment operations**
M P Gibbard 45

Who Pays What?

- C547/006/98 **Reliability – how much is it worth?**
N Hodgson and T Nicholson 59
- C547/009/98 **Life-cycle costing – far from just a calculation**
M Chamberlin 69

Making the Train

- C547/030/98 **A new lease of life**
T Dugher and C Morbey 83
- C547/012/98 **New trains for the new Lantau and airport railway**
M W Gardner, E N Harrison, and D A Guyler 93
- C547/022/98 **Getting the trains approved**
A Cooksey and R Short 121

Putting the Track to Work

- C547/015/98 **Building reliable, maintainable trains**
C M Peckham and H R Simpson 129
- C547/021/98 **New trains for old – heavy mid-life refurbishment of KCRC's EMU fleet in Hong Kong**
M W Q Yeoman 139

C547/020/98 **New maintenance packages – are they a good deal?**
R Wahidi and P J Edwards

C547/019/98 **LCC – what is the real impact upon design?**
M Thomas, L de Vlieghere, and L de Coen

Making the Trains Work Better

C547/002/98 **A wider UK market for simpler, tilting trains?**
C P Boocock

C547/014/98 **The development of gauging software for tilting trains**
D M Johnson and I M Goldney

C547/018/98 **Innovation and new trains**
D Sherrin
