

BRITISH RAILWAYS

DIESEL
TRACTION
MANUAL FOR
ENGINEMEN

1 9 6 2

CONTENTS

LIST OF DIAGRAMS	<i>Page 9</i>
SECTION 1	
INTRODUCTION	<i>Page 15</i>
Brief History of the Diesel Engine: Diesel Traction: Types	
SECTION 2	
GENERAL	<i>Page 23</i>
Heat Engines: Diesel Fuel Oil: BR Specification for Diesel Fuel Oil: Fire Precautions: Combustion of Diesel Fuel Oil: Compression Ratio: Tractive Effort: Horsepower: Torque: Wheel Arrangements	
SECTION 3	
DIESEL ENGINE	<i>Page 30</i>
Principles of Four-Stroke and Two-Stroke Cycles: Basic Engine Features: Material: Crankshaft: Crankshaft Main Bearings: Cylinder Heads: Cylinder Liners: Pistons: Connecting Rods: Valves: Camshafts: Forms of Multi-Cylinder Engines	
SECTION 4	
FUEL INJECTION	<i>Page 49</i>
Fuel-Injection Pump: Types of Fuel-Injection Pump: Fuel Injector: Types of Nozzle: Engine Fuel System: Filters	
SECTION 5	
FUEL-PUMP GOVERNORS	<i>Page 60</i>
Idling and Maximum-Speed Mechanical Governor: Servo-Mechanical Governor: All-Speed Hydraulic Governor: Emergency Overspeed Governor	
SECTION 6	
ENGINE LUBRICATION, AIR AND WATER SERVICES	<i>Page 68</i>
Engine Lubricating-Oil System: Engine Air: Cooling Air to Main Generator: Scavenge Air: Pressure Charging: Engine Water-Cooling System	
SECTION 7	
MECHANICAL TRANSMISSION	<i>Page 78</i>
Fluid Coupling: Freewheel: Epicyclic Gearbox: Cardan Shaft: Final Drive and Reversing Mechanism: Torque Arm	

SECTION 8

HYDRO-MECHANICAL TRANSMISSION *Page 88*

Oil-Operated Torque Converter: Systems: Voith: Mekyll: Rolls-Royce

SECTION 9

ELECTRICITY AND MAGNETISM *Page 110*

What Is Electricity?: Magnets: Electro-Magnets: Electrical Units: Resistance and Current Flow: Insulators: Electro-Magnetic Generation of Electricity: Generators: Direct-Current Generators: Armature Windings: Electric Motors: Interpoles

SECTION 10

CONSTRUCTION OF ELECTRICAL MACHINES, MAIN AND AUXILIARY GENERATORS, MOTORS *Page 130*

Main Generator: Auxiliary Generator: Armature: Commutator: Outer Carcase: Poles: Field Coils: Brush Gear: Auxiliary Machines

SECTION 11

ELECTRICAL CONTROLS *Page 138*

Switches: Relays: Contactors: Reversing Switches: Auxiliary Contacts: Control Cut-Out or Equipment Cut-Out Switches

SECTION 12

POWER CIRCUITS *Page 151*

Field Diversion: Field Reversion: Starting the Diesel Engine: Auxiliary Circuits: Battery Charging Circuit and Low-Tension Voltage Regulation: Air Compressor Motor Circuits: Exhauster Motor Circuits: Traction-Motor Blower-Motor Circuits: Lubricating-Oil Pump Circuits: Fuel Transfer Pump Motor Control Circuits: Starting Circuits: Control Equipment Symbols

SECTION 13

TRACTION CONTROL *Page 172*

Power Regulation: Traction Motor Field Diversion Control: Wheel-Slip Circuits: Reverser Circuits: Driving Control Circuits: Overloads: Diesel Locomotives—Multiple Operation: Diesel Shunting Locomotives: Control Principles

SECTION 14

BATTERIES *Page 190*

Primary Cells: Secondary Cells

SECTION 15

PROTECTIVE DEVICES AND INDICATORS *Page 195*

Indications and Warnings: Protection of Electrical Apparatus: Earth Faults: Fuses: Miniature Circuit-Breakers: Protection of Diesel Engine: Fire Protection, Warning Devices and Fire-fighting Equipment: Indicators: Hydraulic Transmission Protection

SECTION 16

AUXILIARIES *Page 205*

Compressors: Traction-Motor Blower: Train Heating

SECTION 17

BRAKES *Page 216*

Brake Systems: Automatic Vacuum Brake: Quick-Release Vacuum Brake for Diesel-Mechanical Railcars: Vacuum Exhausters: Air Brake: Combined Vacuum/Air Systems: (1) Westinghouse: (2) Davis & Metcalfe—Oerlikon: (3) Laycock-Knorr: Proportional Valve: Relay Valve: Driver's Air-Brake Valve: Combined Air/Vacuum System, Davis & Metcalfe—Oerlikon: Electro-Pneumatic (EP) Brake: Two-Stage High-Speed Brake: Brake Rigging

SECTION 18

AUTOMATIC WARNING SYSTEMS OF TRAIN CONTROL *Page 255*

British Railways System: Western Region (Former GWR) System: Summary of Indications Received

APPENDIX A

GLOSSARY OF TECHNICAL TERMS *Page 262*

APPENDIX B

LIST OF REFERENCE BOOKS *Page 269*

APPENDIX C

SUMMARY OF MAIN-LINE DIESEL-ELECTRIC AND DIESEL-HYDRAULIC LOCOMOTIVES *Page 270*
