

TABLE OF CONTENTS

	Page
1. Introduction-----	1
2. Formulation of the Governing Integral Equation-----	3
3. Discretization of the Integral Equation-----	8
4. Initial Candidate Contact Boundary-----	11
5. Mesh Generation and Contact Boundary Determination-----	11
6. Organization of Computer Program-----	14
7. Examples-----	17
8. Conclusions-----	24
References-----	25
Appendix A: Influence Functions for Rail and Wheel Surfaces-----	26
List of Related Publications-----	27
