TECHNICAL DESCRIPTION MATISA BALLAST CLEANER TYPE C 90 L Page

---

A. MAIN FEATURES OF THE MATISA BALLAST CLEANER TYPE C 90 L.....1

B. TECHNICAL SPECIFICATIONS.....2

C. TECHNICAL DESCRIPTION OF THE C 90 L.....3

1. MACHINE DESCRIPTION

1.1 Traction and screening unit.....7

1.2 Ballast excavating and conveying unit.....7

1.3 Drive.....8

1.4 Braking.....9

1.5 Buffers and couplings.....10

1.6 Power units.....10

1.7 Transmission.....11

1.8 Emergency power unit.....11

1.9 Positioning equipment (cant compensation).....12

2. WORKING COMPONENTS

2.1 Ballast flow.....13

2.2 Ballast excavating system.....15

2.3 Side ploughs.....18

2.4 Ballast hopper.....18

2.5 Main ballast conveyor.....18

2.6 Over screen conveyor.....18

2.7 Double screen.....19

2.8 Conveyor specifications.....19

2.9 Ballast regulating system.....20

2.10 Track lifting and slewing system.....21

2.11 Track holding system.....23

3. CABINS

3.1 Front cabin.....24

3.2 Rear cabin.....24

3.3 Operator cabin.....24

4. LIGHTING AND SIGNALLING.....25

5. OPTIONAL EQUIPMENT LIST.....26

5.1 Auxiliary power unit 35 hp

5.2 Safety braking system

5.3 Heating in all 3 cabins

5.4 Air-conditioning

5.5 Additional fuel tank

5.6 Automatic fish-plate detector

5.7 Automatic control

5.8 Recording

5.9 Narrow excavating

5.10 Additional cutter

5.11 Sanding equipment

5.12 Alternative mesh screens
